

# Injection Systems

## Nipro Needles and Syringes

The challenge of any manufacturer in today's demanding healthcare environment is to provide customers with products that deliver both exceptional performance and value. Nipro lives up to that promise with a full range of injection systems that match a variety of clinical needs. Nipro's state-of-the-art manufacturing assures safe products of consistently high quality.

## Disposable Syringe

See back page for ordering information

- Polypropylene syringe barrel and specially formulated elastomer stopper result in a smooth, accurate motion along the entire length of the barrel.
- Clear barrel assures rapid, precise volume reading.
- ETO sterilized and undergo automated inspection to assure uniform quality.
- Available with Luer Lock, Luer Slip and Eccentric Luer Tip.

## Dose-Saver<sup>®</sup> Syringe

- Low “dead space” at upper end of barrel reduces waste of sometimes costly medications.
- Highly translucent syringe barrel enhances readability.
- Elastomer stopper helps assure consistently smooth plunger action.

Item #	Description	Packaging
JD+01D2238	1cc 22G x 1½ in.	
JD+01D2516-WEI	1cc 25G x 5⁄8 in.	100/Box, 10 Boxes/Case (1,000)
JD+03D2238	3cc 22G x 1½ in.	

## Hypodermic Needle

- Proprietary grinding process results in an exceptionally sharp lancet point able to penetrate tissue smoothly and with minimal trauma.
- Thin wall needle compared to a conventional needle, permitting rapid and efficient drug delivery.
- Translucent hub provides confirmation of flashback.
- Color-coded hub for accurate, quick identification of needle gauge.
