

AMSafe®

Pre-filled Normal Saline Flush Syringe

Single-use prefilled syringes help reduce medication errors and contamination risks associated with multi-dose vials. It also improves clinician efficiency and workflow by eliminating the steps and time involved in the manual preparation of saline syringes.

Contains 0.9% Sodium Chloride Injection, USP.

Features

- Each individual syringe has a dust cover
- Non-DEHP, non-pyrogenic and non-toxic
- Not made with natural rubber latex or preservatives
- Single-Use only
